It is enough that the people know there was an election. The people who cast the votes decide nothing. The people who count the votes decide everything.

His parents also respected his son's true interest and supported him in his quest for scientific research. A vision, he realized the import of the nuclear research program way back in the 1940s, when India was still under the British government. He envisioned a nuclear program of therapies consisting of the use of natural,<sup>3</sup> and plutonium in advanced nuclear reactors with a closed full circle. Several advances were occurring in this field and Homi Bhabha was deeply attracted to research in this field. He was also a painter who loved classical music and<sup>3</sup>. He was abroad on the Indian Air Flight 101, which crashed near Mont Blanc in the Alps on January 24, 1966. From childhood, he was an intelligent and tough student and his parents dreamed of him becoming a mechanical engineer. He had very ambitious plans, and upon returning to his father, he established the establishment of the<sup>3</sup>-ray research unit. However, he honored his parents' desire and completed his degree in mechanical engineering. He envisioned the Three Estates nuclear energy program that focused on the energy<sup>3</sup> of the river rather than reserves of Uranium. Awards and held yes in 1954, he was honored with Padma Bhushan, the third highest civilian in India, for his inestimable Personal life and the Legacy homi Bhabha was a bachelor, a man who devoted his entire life to science. Because of this, he was called the Father of India's Nuclear Power Program.
